

Small Business CRBM Success Program

We provide a clear roadmap for success.

We work with you and your team through our value building methodology and proven project management processes to define a clear roadmap for your deployment. We will set up and teach you how to configure your system so you can optimize your platform installation. When enrolled in the CRBM Success program you are on a one year service contract where we include ongoing training, system upgrades, hosting, technical support and consulting for an entire year.

We bridge the gap between people and technology to empower your team.

We offer award winning technology that is easy to use for non-technical users. Our team of professional instructors and Info@hand & Joomla experts will help you successfully plan and reach your on line business goals through a proven process that will assure your success.

Customer Relationship Business Management

- Need to increase sales?
- Need to improve efficiency?
- Need to empower your workforce?
- Need a low cost of entry solution?
- Need to consolidate your IT infrastructure?
